Final Program

Friday, September 7, 2018
Le Meridien Cyberport – 100 Cyberport Road, Hong Kong
Registration and reception at 18:30 with Fireside Chats to follow

Saturday, September 8 and Sunday, September 9, 2018
Hong Kong University – Surgical Skills Centre

Program Times:
Friday, 18:30-21:00
Saturday, 7:40-17:30
Sunday, 7:40-17:00

Course Chairs
Ahmet Alanay, MD
Acibadem University School of Medicine, Istanbul Turkey

Kenneth MC Cheung, MD
The University of Hong Kong, Hong Kong

Munish C. Gupta, MD
Washington University, St. Louis, MO, USA

KS Sivananthan, MD
Siva Orthopaedic Clinic, Kuala Lumpur, Malaysia

Course Faculty (if not listed above)
Kuniyoshi Abumi, MD
Sapporo Orthopaedic Hospital, Sapporo, Japan

Saumyajit Basu, MD
Park Clinic, Kolkata, India

Vedat Deviren, MD
University of California – San Francisco, San Francisco, CA, USA

Yong Hai, MD
Beijing Chaoyang Hospital, Beijing, People’s Republic of China

Michael Johnson, MD
Royal Children’s Hospital, Melbourne, Australia

Kenny Kwan, BMBCh(Oxon), FRCSEd
The University of Hong Kong, Hong Kong
MK Kwan, MBBS, MS Orth  
*University of Malaya Medical/Specialist Centre, Kuala Lumpur, Malaysia*

Jianxiong Shen, MD  
*Peking Union Medical College Hospital, Beijing, People’s Republic of China*

Surin Thanapipatsiri, MD  
*Siriraj Hospital, Bangkok, Thailand*

Kota Watanabe, MD, PhD  
*Keio University, Tokyo, Japan*

Hee-Kit Wong, MD  
*National University of Singapore, Singapore, Singapore*

Yat Wa Wong, MD  
*Queen Mary Hospital, Hong Kong*

Shu-Hua Yang, MD, PhD  
*National Taiwan University Hospital, Taipei, Taiwan*

Aaron Zhu, MD  
*The University of Hong Kong, Hong Kong*

**Meeting Overview/Description**
The Hands-On Course will provide an opportunity for participants to expand their knowledge and improve their skills through training and discussions with leading spinal deformity surgeons from around the world. Registration will be limited to ensure access to faculty, small group interaction for better learning, and opportunities for hands-on work. Nine hours of the course will be devoted to lab work. Topics and lab sessions will cover all areas of the spine and a variety of conditions and techniques.

**Learning Outcomes/Objectives**
As a result of participating in this activity, participants should be able to:

- Identify appropriate options for cervical and adult deformity reconstruction
- Employ techniques to avoid complications in spinal deformity surgery
- Develop skills in complex cervical deformity correction
- Identify the appropriate indications and demonstrate skills for the correct placement of spinopelvic instrumentation.
- Compare and contrast open and less invasive treatment options for thoracolumbar spinal deformity.
- Integrate techniques for posterior and anterior lumbo-sacral deformity corrections.
- Demonstrate skills for performing basic and complex spinal osteotomies for spinal deformity correction.
- Identify the optimal surgical plan for spinal deformity corrective surgery, and confirm obtaining the correction desired.

**Target Audience**
Spine surgeons (orthopaedic and neurological surgeons), residents and fellows.

**Disclosure of Conflict of Interest**
It is the policy of SRS to insure balance, independence, objectivity and scientific rigor in all of their educational activities. In accordance with this policy, SRS identifies conflicts of interest with instructors, content managers and other individuals who are in a position to control the content of an activity. Conflicts are resolved by SRS to ensure that all scientific research referred to, reported, or used in a CME activity conforms to the generally accepted standards of experimental design, data collection and analysis.
**Insurance/Liabilities and Disclaimer**
SRS will not be held liable for personal injuries or for loss or damage to property incurred by participants.

Course participants are encouraged to take out insurance to cover loss incurred in the event of cancellation, medical expenses or damage to or loss of personal effects when traveling outside of their own countries.

SRS cannot be held liable for any hindrance or disruption of course proceedings arising from natural, political, social or economic events or other unforeseen incidents beyond its control. Registration of a participant or guest implies acceptance of this condition.

The materials presented at this activity are made available for educational purposes only. The material is not intended to represent the only, nor necessarily best, methods or procedures appropriate for the medical situations discussed, but rather is intended to present an approach, view, statement or opinion of the faculty that may be helpful to others who face similar situations.

SRS disclaims any and all liability for injury or other damages resulting to any individual attending a scientific meeting and for all claims that may arise out of the use of techniques demonstrated therein by such individuals, whether these claims shall be asserted by a physician or any other person.

**Language**
Presentations and course materials will be provided in English.

**No Smoking Policy**
Hong Kong University is a smoke free facilities. Smoking is not allowed in either building at any time.

**Attire**
Casual attire and scrubs are appropriate for the course. Scrubs and disposables will be provided at the lab.

**Corporate Supporters**
We are pleased to acknowledge and thank those companies that provided financial and in-kind support to SRS for this hands-on course. These companies provided educational grants to support costs for facility rental, Cadavers, and other course expenses as well as necessary instrumentation and implants for the hands-on lab sessions.

---

**Sunday, September 9, 2018**

- **7:15** Shuttle to HKU
- **7:40** Welcome

**SESSION 3: CERVICAL DEFORMITY**<br>**Moderator: Kuniyoshi Abumi**

- **7:45** Anterior Cervical Discectomies and Corpectomies- Indications, Approach and Execution<br>Shu Hua Yang
- **8:00** Occipital and Cervical Fixation with Cervical Pedicle Screws, and Lateral Mass Screws Indications, Approach and Execution<br>Kota Watanabe
- **8:15** Planning and Execution for Cervical Osteotomies<br>Kuniyoshi Abumi
- **8:30** Complications of Cervical Spine<br>Yat Wa Wong
- **8:45** Discussion
- **9:00** Break, Proceed to Cadaver Lab & Change of Clothing

**Lab 3A**<br>**9:30 – 10:15**<br>Anterior Approaches to the Cervical Spine and Cervicothoracic Junction

**Lab 3B**<br>**10:45 – 12:30**<br>Posterior Cervical Reconstruction from Occipital to T2

**12:15 - 12:45** Lunch & Introduction to APSS - KS Sivanathan

**SESSION 4: ANTERIOR AND LATERAL APPROACH-thoracic & LUMBAR SPINE**<br>**Moderator: Munish Gupta**

- **12:45** Anterior Spinal Surgery for Scoliosis Overview - Hee Kit Wong
- **13:00** Anterior Trans pleural Thoracic Approaches-Deformity, Tumor, Trauma; Lateral (Flank)Thoracolumbar - Lumbar Retroperitoneal Approach for Anterior Column Reconstruction and Release<br>Jianxiong Shen
- **13:15** Anterior Techniques with Anterior Lumbar Interbody Fusion, Retroperitoneal Anterior Approach to L5-S1, L4-5 and L3-4<br>Surin Thanapipatsiri
- **13:30** Complications of Anterior and Lateral Surgery: How to Deal with Them - Michael Johnson
- **13:45** Complications of Posterior Instrumentation (Open and Minimally Invasive Surgery) - Kenny Kwan
- **14:00** Non-Neurologic Complications of Spine Surgery - Kenneth Cheung
- **14:15** Proceed to Cadaver Lab

**Lab 4**<br>**14:30**<br>Anterior Thoracic Transpleural Approach (Mid-Thoracic)<br>Anterior Lumbosacral Retroperitoneal Approach + ALIF L5-S1 & Exposure L4-5

- **16:00** Open Question & Answer Wrap Up Session
- **16:30** Adjourn & Shuttle
